[Portfolio](#)

"I am a designer who is obsessed with creating digital experiences. I believe good design is as simple and minimal as possible."

EXPERIENCE

Front-end intern at Hamdan Info Com (Oct 2022 - Nov 2022)

- Designed and developed a web app as per the client's requirements. Built the web pages with HTML, CSS, Javascript, and Bootstrap4.

DESIGN PROJECTS

Quick Med (Feb 2024 - Present)

- Quick med is an app where you can purchase medicines online & get them delivered to your place within minutes.

Campus Buy (Feb 2023)

- A project targeting students' transition challenges, facilitating buying, selling, and donating used items through an intuitive app interface.
- Designed through extensive research and user testing, focusing on reliability, trust, and seamless transactions.

Career Pulse (Mar 2024)

- Proficient in developing Career Pulse, an innovative app facilitating interview preparation by offering tailored questions, automated feedback, and intuitive design, empowering users for successful interviews.

Fitness tracking app UI (Feb 2024)

- Designed screens to track user's fitness based on their activity.
- It includes Home, Activity, Map, and Reward screens.

NetClan app redesign (Feb 2024)

- Enhanced the Netclan app by redesigning 3 to 5 pages, using the app's own design system to ensure a consistent look and feel throughout.

Venugram (Internship) (Nov 2022)

- As an intern at Hamdan InfoCom, I contributed to Venugram's front-end development, using HTML, CSS, JavaScript, and Bootstrap.
- Crafted user-friendly interfaces and key features, enhancing technical skills and understanding of best practices.
